Welcome to the world of Forint. A world made of strong identities best showcased by **work clothes and uniforms** of **superior quality**.

A world where customer care is the starting point on a path towards demonstrating that each customer is unique, through a process based on trust, precision and tailor-made solutions.

Over forty years of work experience and cutting-edge technology have been harnessed by Forint to overcome the most difficult challenge: to guarantee **efficiency** and **speed** on an industrial level while maintaining the class and **attention to details** that are the hallmark of Italian tailoring.
